Patents owned by the Assignee and related to the present application were subject to assertions of invalidity and unenforceability in Civil Action No. 03-CV-102. All claims of invalidity and inequitable conduct relative to the Assignee's patents were dismissed from Civil Action No. 03-CV-102 prior to discovery relating to Assignee's patents, and the parties in that matter have settled.

U.S. Patent No. 5,723,853, a continuation of an ancestor patent of the present application was subject to suit in Civil Action No. 04-003-A (see Defendant Answer, Reference No. AP). Civil Action No. 04-003-A was settled during discovery relative to U.S. Patent No. 5,723,853. MPEP §2001.06(c) states that "where the subject matter for which a patent is being sought is or has been involved in litigation, the existence of the litigation and any other material information arising therefrom must be brought to the attention of the U.S. Patent and Trademark Office."

The Examiner is respectfully requested to notify the Applicants if the Examiner believes that the subject matter for which a patent is being sought in the present application is the subject matter of U.S. Patent No. 5,723,853.

Applicants believe that a fee is required for submission of this statement. We enclose our check for \$180.00. The Commissioner is authorized to deduct such fee from the undersigned's Deposit Account No. 50-0289. Please deduct any additional fees from, or credit any overpayment to, the above-noted Deposit Account.

Respectfully submitted
